

## Meet New Opportunities . . . by Introduction, Not Chance!

Are you a **coach, consultant or professional advisor?**

Do your **best clients** come to you as **referrals** . . . through someone who trusts you?

DUMB QUESTION! *Of course they do!* But . . . here's the real question for you:

***"Are you meeting enough people . . . through the introductions of others . . . to make you happy . . . AND . . . make your numbers by the end of the year?"***

If you're 'happy' and 'making your numbers' by referrals, you're the **EXCEPTION** not the **RULE!**

So, here's an idea. Would you like to help people you know (e.g. prospects and clients) who:

- A) **have a NEED** . . . that *someone you know* can address quickly and effectively?
- B) **are ready to BUY** . . . a solution to their problem or challenge? **BUT**, they still . . .
- C) **need HELP** . . . to find a competent Expert they can **TRUST** . . . to help them?

***Be the 'GOTO' Person who ALWAYS knows someone your network needs when they need it!***

If you're the person who connects people in your sphere-of-influence with vetted Experts **YOU know, like and trust** . . . Experts who have the 'right stuff' to solve your people's problems . . . you'll end up having two (2) people who'll love you for bringing them together. **Goodwill, Baby!**

**As the head of your very own *Expert Directory*™ — other people can find **YOU**, too! How?**

Through a private network of *Connectors* who can introduce you to people in their networks (i.e. their spheres-of-influence) who rely on them to find people they trust . . . whenever a need develops and your kind of expertise would be helpful to access and engage.

This unique, online service is operating 24/7/365 to help **YOU**:

- **add value** . . . to the lives of other people by finding needed Experts 'when needed'
- **build new connections** . . . with and through other *Connectors* of people, and
- **generate new business opportunities** . . . for yourself with people who:
  - √ **have a need** . . . for an expertise you currently possess
  - √ **are ready to buy** . . . a suitable solution to solve their problem/s, and
  - √ **are being introduced to you** . . . by someone they know, like and trust!
